

# AI Open House

Hands-on workshop / 25 September 2026

Philipp Lichtenberg, Lecturer

1. Say Hello to your colleagues at the table
2. Each group identifies a challenging question
3. Pass the challenge on clockwise to the next table
4. Work on the challenge that you received leveraging AI
5. Create a headline for a press release to promote your idea
6. Pitch your solution in the plenum incl. headline
7. The winning team gets ...

# Size matters

# The DeepSeek way to diagnose a problem

1. Bottom-Up Collaboration and Open Discussion
2. Actively engages in frontline technical diagnosis
3. Small-Scale Experiments
4. Identify hardware/software bottlenecks
5. Workload Imbalance
6. Latency and Scheduling Inefficiencies
7. Diagnose key-value drivers

**THANK YOU FOR YOUR TIME**

Happy Friday and keep in touch
